This work will be a total of approximately \$6 - \$7 million. The match of 30% would leave Lee County with a cost not to exceed \$1.8 million. This grant is solely for the improvement of drinking water; improvements to the treatment plant are not an allowable use for this particular grant.

Re: NPDES MS4 Stormwater Permit Renewal

Summary

• Lee County's stormwater permit is expiring at the end of 2022

• EPD will be issuing the new permit in December 2022

• The cost to update the Lee County plan is in the \$10,000 to \$12,000 range

 The Kinchafoonee and Muckalee Creek have been added to the EPD 303(d) list as impaired waterways. This designation will require Lee County to develop an Impaired Waters Plan

The cost to develop an Impaired Waters Plan is in the \$4,000 to \$5,000 range

 The Impaired Waters Plan will require ongoing sampling and testing. The cost of this is yet to be determined

General

Lee County is covered under a Municipal Separate Storm Sewer System (MS4) permit that is issued by the Georgia Environmental Protection Division (EPD). This is renewed every 5 years. Lee County's stormwater permit will expire at the end of 2022. Currently, EPD is finalizing the new permit and the new permit is anticipated sometime in December 2022.

Existing Permit

Lee County has been operating under the MS4 permit since approximately 2007. The permit requires Lee County to perform certain Best Management Practices (BMP's) for each of the permit categories:

- Public Education
- Public Involvement
- Illicit Discharge Detection and Elimination
- Construction Site Stormwater Runoff Control
- Post-Construction Stormwater Management
- Pollution Prevention/Good Housekeeping for Municipal Operations

Each of these categories have certain BMP's which are required to comply with the permit. Some of these BMP's are normal functions of Lee County staff. These include: site plan review, site development guidelines, erosion control requirements, Code Enforcement, and general Public Works activities. The permit requires documentation from the County that each BMP is completed each year. This is summarized in an Annual Report which is due to EPD at the end of each year. Additional BMP's require a more intentional approach to be completed. These include: organizing public participation events, writing an article for the local newspaper, pond and drainage inspections, and training County employees.

New Permit

EPD is working to finalize the new permit. The permit is anticipated to be released sometime in December 2022. Once issued, Lee County will have 6 months to update their plan to comply with the new permit. No major changes are expected in the new permit, only tightening of the existing plans and requirements.

In order to comply with the new permit, Lee County's plan will have to be re-written/updated. This is best performed by consultants who are well versed in what EPD is requiring of other communities. Lee County previously utilized a consultant to update their plan in 2018. It is estimated that the plan update will be in the \$10,000 to \$12,000 range.

Listed Streams

EPD evaluates all streams and rivers within the state to determine if each stream/river segment is able to perform its primary function. This can include fishing, recreation, drinking water, etc. If a stream/river segment is not able to perform its primary function, that stream/river segment is listed as an impaired stream. These streams are then added to a list known as the 303(d) list.

Lee County's MS4 permit requires the County to develop an Impaired Waters Plan if a listed stream/river flows through the permit area. In 2022, EPD added the Kinchafoonee and the Muckalee Creek to the 303(d) list. This addition triggers the requirement that Lee County develop an Impaired Waters Plan. Since Lee County is over 10,000 in population, the County will also have to undertake periodic sampling of the creeks with the samples analyzed by a laboratory.

The cost of developing an Impaired Waters Plan is in the \$4,000 to \$5,000 range. This does not include the cost of periodic sampling and laboratory analysis. The Impaired Waters Plan would be required by June of 2023, with sampling to begin after that date. Prior to that date, the County will be able to determine a cost for the sampling requirements and can include in the 2024 budget.

Lee County E-911 Emergency Response Department 110 Starksville Ave N Leesburg, Ga 31763

TO: Honorable Board of County Commissioners

FROM: Nikkie Celinski, E-911 Director

SUBJECT: New Telecommunications Tower

MEETING DATE: Tuesday, September 13, 2022

Staff has evaluated several options for an additional tower in the Northwest section of Lee County to enhance radio coverage for Public Safety communication. Based on this evaluation staff recommends the Lee County Board of Commissioners build its own telecommunications tower in the Northern portion of the County.

American Towers owns the tower site we were originally looking at; however, the company required a monthly payment of \$2,600.00 with a 14-year term limit and a 3% escalator. Another tower location was found in the Smithville area that would work perfectly; however, after the tower site inspection, the findings indicated that the tower would need extensive upgrades to be able to support the necessary equipment for our system. In addition to paying for the upgrades to this tower (approximately \$350,000.00 - \$400,000.00, per Motorola), the owner has also requested a monthly lease payment from the County. Neither of these options is the most economical for a long term solution for improving radio coverage for Lee County.

Staff recommends purchasing land and partnering with Motorola to construct a 300ft self-supporting telecommunications tower. There is no set lot size or minimum acreage for tower placement; therefore, I believe Lee County would only need a half acre to an acre of land for the tower. The cost to build is approximately \$447,583.00, with a construction timeline estimate of 8 months. The tower will also be able to accommodate two other tenants that Lee County would be able to acquire lease payments to go towards future maintenance.

NOW THEREFORE, in consideration of the premises, and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties hereto do hereby agree as follows:

- 1. The Development Authority shall take all reasonable actions within its legal authority to assist with the development and construction of the Hospital Project. Such assistance may be provided in accord with the terms of this Intergovernmental Contract, and in accord with such other contracts that the Development Authority may enter into from time to time in connection with the Hospital Project.

- (B) In the event that the revenue bond financing is closed and the revenue bonds are issued, then the Development Authority shall pay the sum of \$1 Million for the payment of such legal fees at the time the revenue bonds are issued in accord with this Intergovernmental Contract and the trust indenture authoring the issuance of such revenue bonds.
- (C) The \$1 Million paid under this under this Paragraph shall be used solely for the payment of legal fees incurred in connection with the legal work to prepare and close the revenue bond financing; provided, however, if the revenue bonds are issued and the total legal fees payable under this Paragraph are less than \$1 Million, then the balance of such funds may be used to pay other costs of issuing the revenue bonds.

In either event, such funds shall be distributed to the law firms based upon the terms of the written engagement letters between the Development Authority and the respective law firms and invoices from such law firms presented to the named payor hereunder in accord with such engagement letters. It is the intention of the parties hereto that such law firms are paid in full for their invoiced legal fees in connection their legal services rendered in connection with the financing of the New Hospital Project; however, if the total legal fees exceed the amount due from the

- 4. The Development Authority shall execute such engagements letters or agreements as may be deemed necessary or appropriate by legal counsel to the Development Authority with the law firms needed for the issuance of the revenue bonds. - 5. This Intergovernmental Contract shall become effective upon the date and year first written above, and shall terminate as of December 31, 2022, or upon such later date as may be agreed to by the parties in writing as an amendment hereto.
- 6. This Contract shall be construed in accord with the laws of the State of Georgia.

Upon default of any party to this Contract, the non-defaulting party shall possess the right to exercise any remedy at law or in equity which may be available to enforce any term, condition, or provisions of this Contract.
- 9. If any provision or portion of this Contract shall be determined by a Court of competent jurisdiction to be in violation of or contrary to any existing or future law, statute, judicial decision, or local ordinance, neither the validity of or the effectiveness of any of the other terms or provisions of this Contract shall be affected thereby.
